

USD COMMUNITY!

Measure V is on the November 5th ballot **to maintain the local education students receive at Union School District (USD) schools.** I am thrilled to be moving forward with our campaign effort for YES on Measure V! A group of dedicated individuals have come together to support this effort to retain our exceptional teachers and protect core programs – **and we need YOUR help!**

Measure V will:

- **Provide** high quality programs in science, technology, engineering/math
- **Attract** and retain highly qualified teachers/instructional support staff
- **Support** high quality reading/writing programs
- **Maintain** manageable class sizes
- **Keep** academic intervention for students who need additional support
- **Provide** high quality programs in music, visual, and performing arts
- **Continue** funding for counselors/mental health support

Our public elementary and middle schools are a key part of what makes the Union community unique. Great teachers, rigorous math, science, and reading curriculum have prepared generations of children to succeed in high school, college, and careers.

Measure V is necessary! All of the funds raised will be used to protect the quality of education in our local schools by attracting and retaining high quality teachers and providing high quality academic programs that our students need.

If we don't pass measure V, about \$1.3 million will disappear from USD school budgets. Our local TK-8 schools will have to make drastic cuts to academic programs, increase class sizes, and maintain only basics. **USD depends on local revenue to supplement limited State funding.**

Please join us in supporting the Measure V effort.
